Re: OTP No. IL10157M, DEA No. PC0209812

Dear Anne Navaleza:

The Substance Abuse and Mental Health Services Administration (SAMHSA) acknowledges notification from the National Commission on Correctional Health Care dated **March 28, 2014**, relating to the opioid treatment program (OTP) listed above. Also, refer to your application for **Renewal/Recertification** dated **January 24, 2014**.

Based on the materials you have submitted and in accordance with 42 CFR § 8.11(c), your program is certified until **March 31, 2017**. It will be necessary to submit an application for renewal under 42 CFR § 8.11(c) at least 1 month prior this date. In addition, each OTP is responsible for maintaining its accreditation status. OTPs that are not currently accredited are subject to regulatory action under 42 CFR § 8.11(a).

Under the terms of this certification, you are authorized to use opioid drugs for maintenance and/or detoxification treatment of narcotic addiction at the above referenced location. Please note that methadone, Suboxone®, Subutex®, and FDA-approved generic buprenorphine addiction products are the only narcotic drugs approved for the treatment of narcotic addiction in OTPs. Also, if you relocate your primary dispensing location from the address listed above you, must supplement your certification by submitting form SMA-162 for advanced approval from SAMHSA. Please include the above OTP number in any correspondence concerning your application. For your convenience, the SMA-162 form can be submitted online via your program's account on the SAMHSA OTP Extranet Web site at <http://otp-extranet.samhsa.gov>. (For help with the site, or your user name and password, contact the Information Center at 1-866-OTP-CSAT or otp-extranet@opioid.samhsa.gov).

The Federal opioid treatment standards set forth under 42 CFR § 8.12 reflect the requirements necessary to determine the Federal qualifications for professional practice in the medical treatment of opiate addiction with opioid treatment medications. Because the State and Drug Enforcement Administration (DEA) standards and regulations may vary, this approval does not abrogate any restrictions imposed by your State Authority or DEA.

If you have any further questions about this application, please contact Brandon Johnson, Division of Pharmacologic Therapies of the Center for Substance Abuse Treatment, at 240-276-2889 or by e-mail at brandon.johnson@samhsa.hhs.gov.

Sincerely,

Brandon T. Johnson, MBA
