I can prove that I was arrested in my fiancée apartment #507 because if you look at camera it will show me being out the window and basically the camera will show everything including all my movements for 4-24-06 and please make sure you keep your eye on P.O. Alvin Jones and see if you see any injuries to him because he claims that I assaulted him. The whole case is a lie just to cover up the beaten & they knew if they let me go that I was going to report it.
