[Second corrected] Amended Subpoena to DISH 2025.02.10.pdf

Cliff and Amber,

Thank you for speaking with us on Friday. This email memorializes our call and flags outstanding topics that we did not discuss.

Briefing Schedule: Plaintiffs will follow-up with DISH about DISH's proposal for three weeks to respond to the forthcoming motion to compel.

Structured Data: DISH's position is that T-Mobile has all structured data regarding Boost Mobile from after the merger until June 2023. DISH will produce structured data from June 2023 to June 2024. DISH acknowledged the parties are at impasse regarding the production of structured data from MVNOs that are owned by DISH but not affiliated with the Boost brand, which includes Ting, Gen, and Republic (prior to Republic's merger with Boost). DISH will confirm that no other MVNOs exist.

Upcoming Amended Subpoena: DISH's counsel agreed to accept service. I have attached it to this email.

Pre-Merger Productions: DISH will confirm whether they still have pre-merger productions and whether DISH is opposed to Plaintiffs receiving productions from parties to whom DISH provided these productions in other litigations. Plaintiffs reserve their rights on DISH performing due diligence to contact parties that received pre-merger productions.

Custodial Searches: During our meet and confer on Monday, February 3, DISH promised to confirm whether DISH would produce organizational charts. We didn't receive a position during the call and, based on the fact that we are still working through discussions on custodians and search terms, Plaintiffs believe DISH's position would greatly help future discussions.

On search terms for Request Nos. 9 and 19, please see the following search terms. Plaintiffs provide these draft search terms in good faith, in hopes that DISH will provide an answer to whether it will conduct custodial searches for the eight custodians Plaintiffs have requested. DISH should not share the proposed search terms with T-Mobile or any other non-parties at this time.

- Request No. 7: (DISH OR Boost OR Genesis OR "Gen Mobile" OR "Ting Mobile" OR Republic OR [any codename DISH uses for itself or its MVNOs] AND ((Transaction OR merger OR acquisition OR "DOJ Consent Decree" OR "Department of Justice" OR "antitrust" OR "anti-trust" OR "S.D.N.Y." Go-get searches: Finally, we did not address go-get searches on Friday (at least not fully), but I believe we are at impasse based on our previous conversations. Apart from DISH's standing on its objections with respect to pre-merger documents, Plaintiffs understand DISH's position to be that its provision of one type of document (quarterly reports to the Monitoring Trustee) is sufficient. Plaintiffs do not agree and continue to believe that quarterly monitoring reports are not sufficient. The go-get searches were an attempt at compromise; we see the appropriate alternative to be custodial searches.

Because we think that search terms could be helpful in crystalizing any disputes, please see the following proposed search terms for the requests that were the subject of the go-gets:

- Request No. 5: "status update regarding wireless network development" OR [any codename DISH uses for the reports it submits to the Monitoring Trustee] OR ("monitoring trustee" OR (trustee OR monitor /10 "DOJ Consent Decree") OR [any codename DISH uses to refer to the Monitoring Trustee])
