EM-2021-17738 Security 9/30/21 5:00 PM General [REDACTED], [REDACTED] [REDACTED] E Velazquez EM ELECTRONIC MONITORING

This is a body worn camera incident. On September 30th 2021, R/I's Velazquez #6223 along with Evans #6274 were dispatched to [REDACTED] and attempt to make contact with [REDACTED], [REDACTED] [REDACTED] due to not being at his home and investigators not being able to make contact with the subject on September 29th 2021 at 0900hrs and other investigators attempting to make contact with him two other previous times resulting in the siren from the device being activated. R/I's arrived and we saw lights on and someone was in the home. R/I called protocol and attempted to have the siren but it was not successful due to the participant having low cell strength. We contacted the property manager named [REDACTED] that lived in the unit in the rear coach house and as the nephew of the land lord, he was able to open the back door and allow us entry. At this time we called cook county dispatch to have CPD assist us while we attempted to make contact and CPD units 7742 and 7252 held the outside perimeter for us. We went in and began to knock on the back door of the second floor apartment, we yelled out his name and the subject never responded. We did notice extension cords leading from the basement to the second floor and it seemed that the second floor apartment did not have its own power. With not being able to make contact we left the area. A few minutes later the participant called Protocol asking why where there Sheriffs at his host site. We asked the participant via cell phone to wait for us there so we can interview him. The participant then waited for us outside the host site and upon making contact we immediately handcuffed him and locked them for fit and searched at 2013hrs. He was then Mirandized at 2015hrs and escorted to squad 9667, we then asked questioned him about his issues he's been having and about the unauthorized leaves, battery critical and No GPS violations. He stated that he's been home the entire time, even though we were knocking at his door for five minutes with CPD. Due to the fact that the participant does not comply with the EM requirements of charging his device for two continuous hours daily which he has not done in the last seven days, leaving his host site without authorization multiple times tracing at [REDACTED] and at [REDACTED] and as for south as [REDACTED] on September 13th, tracing in various locations on September 30th for the majority of the day including Midway airport and as far west as [REDACTED] it was determined that the participant cannot follow the rules and regulations of the EM program and will be returned to the custody of the CDOC. In summary, on 21 MAY 23 Investigator Gonzalez #6303 and Poindexter #6302 were assigned to the Electronic Monitoring unit for the 1500-2300 HRS shift. R/I's (Reporting Investigators) were dispatched to make contact with EM Participant [REDACTED], [REDACTED] [REDACTED] for a strap tamper. R/I's made initial contact with participant at approximately 1845 HRS. Per Electronic Monitoring rules and regulations, participant are to be handcuffed, pat searched, and escorted inside the residence in order to be interviewed. The participant opened the main door but refused to open the screen door. The participant had his mobile phone in his hand and it was recording, and stated, "why the fuck are you here? Get out of my face! I'm tired of this! You guys keep trying to play me!" It was explained to him that per protocol, he is to be handcuffed and he is to let us gain access into the residence to be interviewed. After a few moments he finally opened the screen door but he still was refusing to be handcuffed. Investigators allowed him to walk outside to the porch area and have a seat on the front stoop. The participant ignored all commands to have a seat on the stoop. The participant became irate by yelling profanity such as, but not verbatim, "I don't give a fuck, I'm not cuffing up! I know what you're trying to do. I don't know why you are trying to kill me. I don't want to die. At this point, Inv. Poindexter contacted Cook County Dispatch via radio to request additional units to report to the scene as well as request EMS to the scene. After a few minutes of using de-escalating tactics, Investigator Poindexter was able to calm participant, enough have a seat on the front stoop. Inv. Poindexter asked the participant if he tampered with the device in any kind of way. At first he denied tampering with the device but then admitted to tampering with the device because he felt that he had been wrongfully incarcerated and he should not be on Electronic Monitoring. Inv. Poindexter examined the GPS device and there were clear indications that the device had in fact been tampered with. There were multiple visible indented lines on the device strap, which is consistent with someone attempting to remove the device using a sharp tool or knife. Tampering with the GPS device is a major violation of the rules and regulations of the Electronic Monitoring program as well destruction of county property. For these reasons, he will be returning to CCJ. Two Evergreen Police Officers arrived on scene to assist as well as Inv. Pasquel # 6306 and Inv. Touhy #6314.
